PROFESSIONAL SUMMARY

Full stack software engineer with 4+ years of professional experience, including 3+ years building production web applications with React.js, Next.js, TypeScript and Node.js. Currently a Support Engineer at Badr Technology LLC in Doha, supporting the BadrGo ride-hailing platform and working with Node.js, PostgreSQL and Google BigQuery for internal tools, data and reporting. Known for fast, responsive interfaces, clean REST API integration and dependable delivery — from company websites and SaaS marketing sites to AI-powered web apps used by real customers.

PROFESSIONAL EXPERIENCE

Support Engineer

Badr Technology LLC (BadrGo) | Doha, Qatar

Technology company behind BadrGo, a bilingual ride-hailing platform in Qatar.

Apr 2026 – Present

- ◆ Provide technical support for the BadrGo platform, troubleshooting issues across internal systems and client-facing tools and driving them to resolution.
- ◆ Write SQL and manage data in PostgreSQL and Google BigQuery for storage, analysis and operational reporting.
- ◆ Develop internal tools and full stack features with Node.js, Express.js and Python, and support the bilingual (English / Arabic) BadrGo website.
- ◆ Work closely with product and engineering teams to document recurring issues and improve system reliability.

Freelance Developer

Self-employed | Remote

May 2025 – Mar 2026

- ◆ Delivered end-to-end web projects for international clients, from requirements and UI design to deployment on Vercel.
- ◆ Built responsive, SEO-ready websites and web apps with React.js, Next.js, TypeScript and Tailwind CSS.
- ◆ Shipped sites on Next.js, React + Vite, WordPress and HubSpot CMS for businesses in IT services, fintech, healthcare and home services.
- ◆ Handled data processing, validation and cleaning for client datasets with a high level of accuracy.
